

CLAIMS

I claim:

- assembly*
- sub*
SCI
1. A telescopic leg ladder comprising:
a leg ladder with two vertical legs;
a plurality of horizontal steps;
each leg having a telescopic device that allows the leg(s) to be extended;
112 a securing locking device that will fix the extended leg of the ladder;
what? respective
a foot pad attached to the floor pad of the telescopic extension device;
N/A, B.
pads on the upper edges of the ladder; and
method?
a mechanism consisting of sliding rods from the rungs of the ladder in order to hang objects.
 2. The telescopic leg ladder as claimed in Claim 1 wherein the telescopic device is a threaded screw mechanism.
 3. The telescopic leg ladder as claimed in Claim 1 wherein the telescopic device is a slide tube mechanism.
 4. The telescopic leg ladder as claimed in Claim 1 wherein the telescopic device is a spring loaded mechanism.
 5. The telescopic leg ladder as claimed in Claim 1 wherein the telescopic device is a hydraulic mechanism.
 6. The telescopic leg ladder as claimed in Claim 1 wherein the securing device is a metal pin.
 7. The telescopic leg ladder as claimed in Claim 1 wherein the foot pad is covered with small pointed studs for increasing its grip on uneven terrain.

Contd.

8. The telescopic leg ladder as claimed in Claim 1 wherein the pads on the upper edges of the ladder are fitted with rubber to increase its grip and stability.
9. The telescopic leg ladder as claimed in Claim 1 wherein the pads on the upper edges of the ladder are fitted with plastic to increase its grip and stability.
10. The telescopic leg ladder as claimed in Claim 1 wherein the mechanism to hang objects includes hanging tools.
11. The telescopic leg ladder as claimed in Claim 1 wherein the mechanism to hang objects includes hanging hang paint cans. *method step?*
12. The telescopic leg ladder as claimed in Claim 1 wherein the mechanism to hang objects includes hanging nail holders.
13. The telescopic leg ladder as claimed in Claim 1 wherein the mechanism to hang objects includes hanging tool holders.
14. The telescopic leg ladder as claimed in Claim 1 wherein the ladder and telescopic mechanism is produced of aluminum. *N.A.R.*
15. The telescopic leg ladder as claimed in Claim 1 wherein the ladder and telescopic mechanism ^{are} is produced of fiberglass. *N.A.R.*
